

Vehicle Mounted Terminals Slim, rugged and powerful – VMT9000 series

Industrial IT platforms for warehousing and logistics, MES applications as well as agricultural and construction machinery Technology for Professionals

That's something you can count on. For more than three decades, ADS-TEC has continuously provided powerful edge PC technology with an industrially-oriented design. Our complete depth of development and the state-of-the-art processes are the basis for customer-oriented products and individual solutions. Technology 100% made in Germany – a good feeling for ADS-TEC customers.

VMT9000 series Vehicle terminals of the fifth generation

With its technologically advanced design and exceptional quality, the VMT9000 series is carrying on the tradition of award-winning ADS-TEC operating devices. The family of terminals and its wide range of features were developed specifically for the target markets of logistics and agricultural and construction machinery on the basis for almost 40 years of industry-specific experience. The VMT9000 series is characterised by an especially robust design to ensure reliable function even under the most demanding conditions.

With the VMT9000 series, you can select from freely configurable features based on the latest industrial-grade PC technology according to your company's individual needs.

VMT9000 Series Product Benefits

- → Designed for the toughest environments
- → Interruption-free data transmission
- → Multi-OS capable
- → Compact design grants best overview on vehicles

Powerful

 Equipped with the Intel Atom® series x7-E3950 (Apollo Lake)

Sunlight readable

- Optimum readability in difficult visibility conditions
- Reliable functionality even outdoors

Touch screen

- Select between resistive and capacitive touch screen
- Both touch screen variants can be operated with gloves
- Extremely break- (IK08) and abrasion-resistant front sides

Robustness

- IP66 certified
- Vibration and impact resistance acc. to class 5M3
- Wide operating temperature range from -30 °C to +60 °C
- Sturdy aluminium die-cast case
- Resistant to a wide range of chemicals and UV radiation as well as adverse weather conditions
- Screwless design for simplified cleaning

Power supply

- Wide-range power adapter for flexibly connecting a 12 V - 48 VDCIN power supply
- Input voltage range 9 60 VDCIN

Sensors & data security

- · Automatic brightness adjustment
- Integrated proximity and acceleration sensor
- User identification via RFID
- Smartcard-secured VPN tunnel and integration in the ADS-TEC IIoT Service Platform Big-LinX®

Wireless – Wi-Fi, Bluetooth, WWAN and GPS

- The latest Wi-Fi standards for optimum roaming behaviour
- External antenna can be connected in the case of difficult transmission and reception conditions
- WWAN and GPS for outdoor applications
- Bluetooth for connecting scanners, etc.

UPS

- UPS function allows to work without interruption, even if the forklift battery needs to be replaced
- UPS integrated in the interface cover, making it easy to replace
- Provides power up to 1.5 hours

Ignition function on vehicles

- Terminal is switched on by means of ignition voltage
- The system is either disabled or shut down when the ignition key is removed

Security through software tools and ADS-TEC service

Focus is on the customer Services and individual configuration

ADS-TEC continues to support you after you purchase a device and offers various service agreement options. Furthermore, the VMT9000 series with Big-LinX – the IIoT Service Platform from ADS-TEC – is prepared for Industry 4.0 applications in logistics.

	without service package	BASIC adstec Service	SILVER acistec Service	GOLD adstec Service	FCC aclstec Service
Protection against technical malfunctions	_*	✓	✓	✓	-
Contract term	_*	36/60 months	36/60 months	36/60 months	-
Processing time of the industrial IT product in the event of service	20 AT	10 AT	5 AT	3 AT	-
Protection against mechanical damages	_*	-	-	-	-
Assumption of repair costs also for mechanical damages	_*	-	-	-	✓

ADS-TEC Services The packages at a glance

In order to cover technical malfunctions it is possible, beyond the statutory warranty, to purchase an ADS-TEC industrial IT product for an extended service. In this way, it is possible to have longer-term protection against repair costs due to technical malfunctions.

Big LinX® IIoT Client Secure connection for servicing

- VPN tunnel secured via smartcard (optional software certificate also available)
- Includes X-Remote for secure remote desktop connection
- Configurable and secure data push for provision and visualisation of remote maintenance or other big data applications
- Keep software, firmware and BIOS always up-to-date on your devices With Big-LinX, a central platform for remote maintenance of any number of terminals is available for technicians or service groups.

The ADS-TEC Group Technology for Professionals

For decades, we follow the latest technologies for the best benefit of our customers. Depth of development and process "Made in Germany" distinguish us, so that we remain able of acting over long periods of time. On this basis we are a strong and reliable partner in the fields of "Industrial IT" and "Energy".

Added values For the success of our customers

- Our products have been developed in-house for over 35 years
- 100% depth of development as basis for long-term and individual solutions
- Tailor-made solutions based on tried-and-tested standard products
- Cloud-based IIoT solution kit for Industry 4.0 applications
- Highest safety standards for worldwide data communication
- Roll-out, asset and solution management services
- References and applications in areas like automation, logistics, medical technology, food and beverage as well as agricultural and construction machinery
- Extensive range of service offerings
- $\bullet \ \, \text{Intel} \\ ^{\texttt{@}} \, \text{Technology Provider Platinum Partner and member of the Intel} \\ ^{\texttt{@}} \, \text{Internet of Things Solutions Alliance} \\$
